Dr. Paul Savala

"A Very Smart Friend"

THE FRAMING

Every Student Has A Very Smart Friend Who...

Has taken every one of their courses

Is available any hour, for as long as you want

Will help however you ask, even doing it for you

Can be confidently wrong

How would we teach/assess this student?

THE FRAMING

The Claim

Is *only occasionally* wrong

NEXT

How well do today's models handle the kinds of questions our students see?

How has that changed over time?
